Frequently Asked Questions

Investing In Your Home – How Much Does It Cost?

“It might seem awkward talking about money with some designers, but you made it easy and comfortable because you respected our limits. Your knowledge of space and ability to incorporate things that we already had was amazing. You made our treasures look even better.” – [Susan Kaufman](#)

It is vital that you share your expected investment. You may not know what the entire project will cost for your wish list, but we help you value-engineer your design so you get as much as possible for the money you set aside for your project. We can't work without knowing your limits because we could overspend without knowing the parameters of your project, and what is comfortable to you.

What If My Spouse & I Don't Agree?

“You carefully maneuvered between our different tastes and opinions, and never allowed our project to stall. You gave us the confidence to make decisions and selections that it would have taken us years to do without your help. You truly understood that our home had to be practical as well as beautiful.” – [Susan Kaufman](#)

Our goal is to have both of you achieve 90% of what you want individually. We help you decide who “wins” on a few decisions so we keep your project on track.

Will My House Look Like Me or Like Your Design Style?

“You surprised us with your attention to detail and your powers of recall. You remember our comments and desires and then wove them into our home without imposing your taste on us.” – [Susan Kaufman](#)

You live in your home...we don't. It should reflect your taste, and though we push you to be adventurous (that is why you hire a designer), we never impose our ideas on you.

Will You Respect My Time?

“I love that you are always punctual and respectful of time. You kept our projects moving and your scheduling of everything was exceptional. Your contractors were also terrific.” – [Susan Kaufman](#)

You are busy, and that is why you want a designer to help you accomplish your design work quickly and painlessly. We know you have other things to do, so we show up when we promise, and we do what we say so you feel complete trust and confidence in us.
